STUDENT EXPERIENCES

“What I like most about the campus is that it is small and everything is close to me. I don’t have to walk a lot to go to the buildings.

I believe that the English for Academic Purposes Program is very beneficial to students because it helps us to develop our communication skills, how to communicate better and how to think independently. Also, EAP helps students to understand the American culture and to reflect about our own cultures.

I am also involved on campus, I have been to the Spanish language table, I don’t attend every week but I try my best to attend when I can. I think this is very useful because we talk about a lot of things and I’m improving my Spanish vocabulary. I’m also part of an indoor soccer league where we play soccer every Sunday night.

What has made my experience enjoyable at Salve is the fact that I have a lot of friends who are there to help me. Also, the mentors are very helpful because they are always asking me how I am doing and are always willing to help me.

My favorite thing about Salve is that everyone is so welcoming and people care about me here. My friends, the professors and staff, they are all helpful as well.”

Visiting Student, Brazil

ROOMS WITH A VIEW

Our 80-acre campus features 21 structures of historic significance that have been carefully adapted to serve as classrooms, performance spaces, gathering areas and student residences while also preserving their status as treasures of the 19th and early 20th centuries.

Visiting study abroad and exchange students generally live in cottages, apartments and historic homes scattered throughout campus.

Most have full kitchens; however, students living on campus must

register for a minimum meal plan of eleven meals per week. On-campus dining options in the meal plan include the large Miley Café which offers multiple main entrée offerings, including vegetarian and vegan options, at all meals including a Mongolian grill, burger station, pizza/pasta station, soup and salad bar and sandwich station. Students can also use their meal plan at the smaller, cozier on-campus settings of Jazzman's Café, the Global Café or Starbucks and even at some downtown establishments.

Visiting students also have complimentary access to the on-campus Recreation Center which includes a gymnasium, fitness center, aerobics studio, training rooms and locker rooms.
