

Salve Regina University Information Technology

Registering Your PC on the Salve Community (SRU-Community) WiFi Network:

Salve Regina University has instituted a network access control system to provide a safe and secure computing environment for all computers and devices that use the University's network. Registration is required for all devices that wish to connect and use these network resources. The following instructions are provided as a guide to assist students with connecting their computers to the University's network.

1. When arriving on campus, power on your machine and connect to the "SRU Community" network. Open a browser once connected and you should be redirected to the Network Access Control Registration page.

**Note: You may receive a message stating "This Connection is Not Private". If you do, click on "Show Details".*

This Connection Is Not Private

This website may be impersonating "portal.salve.edu" to steal your personal or financial information. You should go back to the previous page.

Safari warns you when a website has a certificate that is not valid. This may happen if the website is misconfigured or an attacker has compromised your connection.

To learn more, you can [view the certificate](#). If you understand the risks involved, you can [visit this website](#). ←

2. On the Network Access Control Registration page click 'agree' to proceed to the registration page.

The screenshot shows the Salve Regina University Network Access Control Registration page. The header includes the university name and "Network Access Control". Below this, the page is titled "Registration" and "Computer and Network Use Policy". The main content area contains an "INTRODUCTION" section with text about the university's mission and a "GENERAL PRINCIPLES" section with text about the use of information technology resources. At the bottom of the content area, there are two buttons: "Disagree" and "Agree". A footer at the bottom of the page reads "If you need assistance, contact the Help Desk (401) 341-7777 option 2."

3. On the registration page choose 'click here to continue'

The screenshot shows the Salve Regina University Network Access Control Registration page. The header includes the university name and "Network Access Control". Below this, the page is titled "Registration" and "Welcome". The main content area contains a "Welcome" section with text about the registration policy and a list of requirements for compliance. A "Note" section provides information about mobile devices. At the bottom of the content area, there is a "Salve Regina University Community Members" section with a link "Click here to continue." and a "START >>" button. A footer at the bottom of the page reads "If you need assistance, contact the Help Desk (401) 341-7777 option 2."

4. At the screen below, enter your Salve Regina credentials, Firstname.lastname same as you use for logins like the Portal and Canvas. Now click the [continue](#) button

The screenshot shows a web page for Salve Regina University's Network Access Control. The header features the university's name and logo. Below the header, there are navigation tabs for 'Salve Regina University' and 'Registration'. The main content area is titled 'User Registration' and contains instructions for users. It states that each user must verify their PC meets network policies before connecting. It also notes that users must have an active account and provides instructions on how to proceed based on whether they know their credentials or not. A 'Continue' button is visible at the bottom of the registration form.

Salve Regina University Registration

User Registration

Each user is required to verify that their PC will meet established network policies prior to connecting to the network.

You must already have an active Salve Regina University account in order to register.

- If you know your username and password fill out the form below and click the download button.
- If you do not know your username and password, contact the Help Desk (401) 341-7777 option 2.

When you have filled out the form, you may be prompted to download and run a security scan to verify that your PC will meet these policies. The process will take approximately one to two minutes. Do not interrupt this process while it is running.

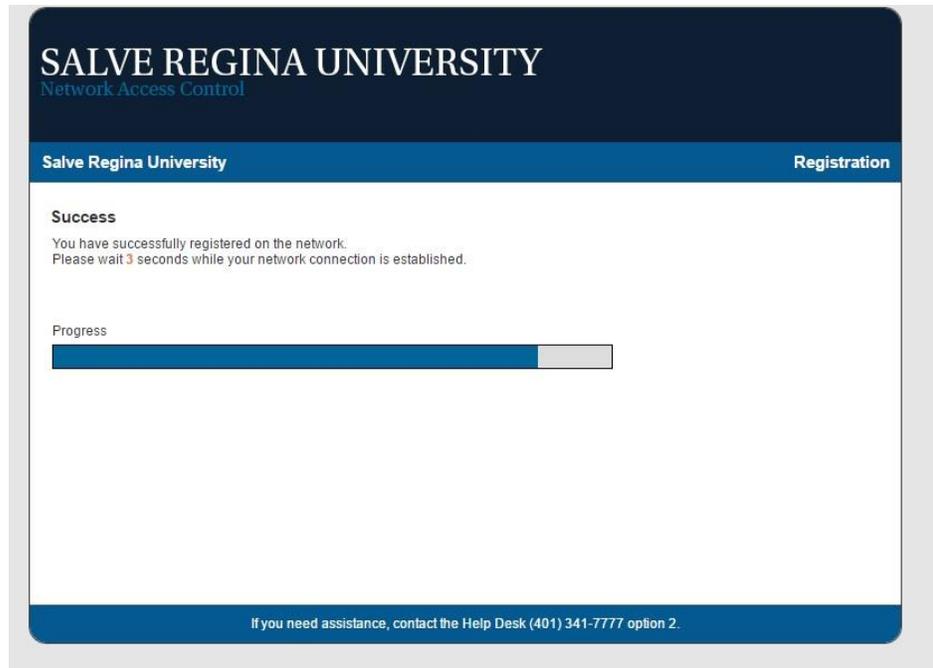

Enter your username and password. Then click the Continue button.

5. The browser will now redirect you to the success screen. A progress bar will appear. When it is complete, the message shown below will instruct you to close and reopen your browser. At this point, you should be registered to the SRU-Community network and have access to the portal.

a.

6. Should you have trouble registering to the SRU-Community network through FortiNAC, please feel free to contact the SRU Technology Services Center at 401-341-7777 and a technician will assist you with registering on the network.
