## Select a Program of Study That Best Serves Your Career Goals

Gain the knowledge and skills you need to succeed in today's increasingly technical and global environment with a master's degree in criminal justice and cybersecurity from Salve Regina University. Offered in a flexible, fully online format, our program addresses the needs and requirements of justice and law enforcement leaders along with cybersecurity and intelligence specialists and business professionals.

### Available concentrations:

- Cyberthreat management and response
- Intelligence
- Leadership

### Available graduate certificates:

- Cyberthreat management and response
- Intelligence and analysis tradecraft
- Leadership in justice

Our program enables practitioners, managers and leaders to choose a course of study that best serves their personal and professional goals, allowing them to broaden and enhance their careers with topics that are current and relevant. And through our popular accelerated offerings, qualified Salve Regina undergraduates can earn their bachelor's and master's degrees in just five years.

Outside the classroom, our dedicated faculty work closely with students to meet their individual needs while serving as career-focused mentors, helping students to build their professional network.

**Michael Teeter**, lecturer and program director,  
*Department of Criminal Justice and Criminology*

“Salve Regina’s master’s degree in criminal justice and cybersecurity prepares students to achieve their academic and professional goals. Whether you’re entering the workplace for the first time or you’re working in the field and seeking to make yourself more impactful and effective as a practitioner and leader, our program will position you for success in your chosen field.”

---

## THE SALVE DIFFERENCE

---

### ADVANCE ON YOUR TERMS

Offered in a fully online format, our program delivers courses in seven-week modules, allowing students to progress rapidly through their master’s degree. This modality accommodates the time demands of professionals assigned varying shifts as well as those working or deployed throughout the U.S. and in other countries.

### PRACTITIONERS AS TEACHERS

As practitioners with longtime experience in their profession, our faculty know their craft. Using a blend of academic and practice approaches, they teach not just theory, but also how it applies to the work our students are doing in their chosen field. Through small class sizes and personal attention, these dedicated faculty offer each student a high-touch educational experience.

### PURPOSE-DRIVEN EDUCATION

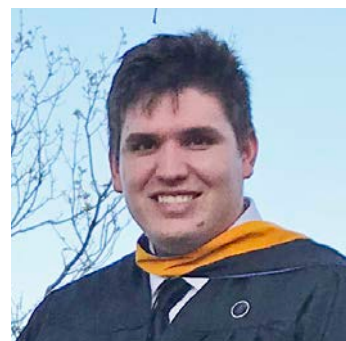

The evolving role of professionals in justice, government and industry demands innovative leadership that creates a culture and climate founded in respect, ethics and integrity. Guided by Salve Regina’s mercy mission, our criminal justice and cybersecurity program prepares students to serve their communities with empathy and compassion.

---

### Shane Bowes '20, '22 (M)

*Connecticut state trooper*

“Having the humanitarian values of Salve’s mercy mission instilled throughout my education has allowed me to be more comfortable in providing empathetic services to victims. Salve is fostering a harmonious, just and merciful perspective on life. It was interesting to see this in the context of the law enforcement field, as it shaped the way I problem solve now in my everyday work.”

### Thomas Wagner '18, '19 (M)

*Classified cybersecurity senior, Lockheed Martin*

“If I hadn’t jumped into my education at Salve, I wouldn’t be in the position that I am. What’s nice about the program is that it’s not just one aspect – it covers everything, which helps you be successful in your career path. You’ll also find professors that are going to really help you excel. They’re all there to benefit you. I credit the University for putting me in the best possible scenario for a successful career.”
