

## Salve Regina University

### Request for Bid/Proposal: HRSA Grant – Health and Wellness Mobile Unit

#### Vendor Questions and Salve Regina University Responses

1. Q. Are you requesting a truck or a coach?  
A. **We would prefer a Coach. You may submit bids for both options if your firm has more than one solution.**
  
2. Q. For the HVAC, are roof top AC units with a heat system acceptable or do you specifically want a ducted system?  
A. **Either rooftop or ducted systems are acceptable.**
  
3. Q. Does the vital signs area require its own private room? Or is it the same as the exam room? Is the refrigerator in this area medical or for staff?  
A. **The vital signs area is not a private room; vital signs would be taken in the exam room.**  
  
**Please note, we would like an intake area and this is also not a private room  
The refrigerator in this area is for staff. It is not a medical refrigerator.**
  
4. Q. What specific furniture is required in the counseling rooms?  
A. **The counseling rooms require a staff desk/chair, patient chair or bench and TV and overhead cabinets for supplies**
  
5. Q. How will the TV's be used in each of the rooms (i.e., what will be playing on them) to ensure proper placement of the TV's on appropriate walls  
A. **TV's will be used for education and training of patients, playing DVD's and may be used by staff to view the news during an emergency management situation.**
  
6. Q. Is a lab area needed for the staff with a sink, counter space, cabinets, etc.  
A. **No lab area is needed; however a sink, countertop and cabinets for storage of educational supplies is needed.**
  
7. Q. Provide the make and model of computers and printers you require and how many? Or will you supply these on your end?  
A. **Salve Regina will supply these.**
  
8. Q. Please specify the model of the X-ray view box you require and where this will be located.  
A. **We require a single X-ray viewing box; no particular make/model is required. We prefer it to be placed in the exam room**
  
9. Q. Do we need to allow for space for an Xray machine? If so, do you have specs?  
A. **An X-ray machine will not be needed for the mobile unit.**
