Select Done after receiving the Connected to the Internet notice.

QUICK TIPS

- Temporarily disable any VPN services you may be using.
- The 'SalveRegina' network key/password is case sensitive. This must be entered correctly for full access.
- Make sure your Salve username and password is correct.
- Disable custom network settings make sure your network settings on your device are set for DHCP, and there no statically assigned IP addresses or DNS servers.
- Try giving your device a restart.
- If you are still stuck, contact the Technology Services Center for assistance. Contact information is provided at the bottom of this document.
