

SALVE

NEWPORT • RHODE ISLAND

YOUR NEXT ADVENTURE
STARTS HERE

Welcome to an adventure that never ends.

Success isn't at the end of your journey. It's found in every moment along the way.

At Salve Regina University, we know there isn't just one destination, but many – at every key step of your growth. When you strengthen the friendships that last for life. When you build the skills that power your career. When you take a chance on joining a club, experiencing a class outside your discipline, envisioning a new project and following your curiosity wherever it leads.

Your moment to shine isn't off on some distant horizon. It's right here at Salve, from the moment you step foot on a campus that inspires your growth like never before.

Arrive at Salve and let your adventure begin.

With liberal arts courses and professional programs, Salve's curriculum is designed to help you make an informed decision about your intended major through curricular advising and workshops that link academic experiences to career success. Learn more on this path of self-discovery by working with advisors who will assist you in exploring various academic areas of interest while staying on track for graduation.

Why Salve?

It's the combination of a one-of-a-kind location beside the ocean, a deep connection to the Salve, Newport and global communities, plus a purpose-driven education that will provide you with a unique experience that prepares you for what's next.

Start writing your own success story at salve.edu/adventure.

SALVE | COMPASS

The Salve Compass is the framework for your four-year experience, connecting college to career and empowering you to explore, define and pursue your academic and professional goals.

With an emphasis on a whole-person approach, the Salve Compass equips students with the skills required to navigate the needs and opportunities of an evolving job market. It provides an immersive and transformative undergraduate experience, both in and out of the classroom, for every Salve student.

FIRST YEAR
FOUNDATION

*When you arrive at Salve,
you arrive at your new home
away from home.*

From New Seahawk Orientation
to a semester filled with programs
designed to help you settle into campus life,
you'll discover how the Salve and
Newport communities are connected
to each other - and to your success.

**TALITHA
GIARRATANI-
CHANDLER '26**

*Marketing Major
Business Administration Minor*

*Resident Advisor / Intercultural
Competence Development Program
Participant / Member of the
Leadership Scholars Program,
Black Student Union and
Multicultural Student Organization*

“I think I settled into college life pretty easily – people would check in and give me information but at the same time, give me space to do things on my own.

In college, you’re here to be on your own and you don’t want to feel that you constantly have someone looking over your shoulder. As an RA, I want to be there to make sure students have as little problems as possible. I want them to view me as an example of what being a student at Salve is – someone they can go to, a peer, a friend who gives you guidance.”

FIRST YEAR
FOUNDATION
COMPASS RETREAT

*Intentional, developmental
and distinctly Salve*

Using a Life Design model centered on our Compass values such as a rigorous transformative education, adaptive resilience, compassionate mercy leadership and an inclusive community – students are guided to an understanding of purpose. Elements like the compass retreat allow students to further connect and reflect.

EMMET SCHUELE '26

Accounting Major, Data Analytics Minor

Varsity Soccer Player / Member of the Leadership Scholars Program

“I had never met a lot of the people who were at the compass retreat, so it was definitely a good experience for me. We were all on the same page and willing to learn and grow in the experience. The group activities were beneficial, everyone participated. One thing we talked about was something we thought didn’t go the best for us. We found other people who had similar struggles in their first semester and in talking to them, it was nice to learn from their experiences as well.

As long as you are putting yourself out there, you’ll find your place. Having people available to talk to about what I want to do going forward is definitely really nice, whether it be my advisor, or professors, or upperclassmen, I’ve had a great number of people who I can talk to.

Now I have something that I know I enjoy and want to do; I think that’s really important to find that drive and sense of purpose in your schoolwork.”

OUR MISSION

As a community that welcomes people of all beliefs, Salve Regina University, a Catholic institution founded by the Sisters of Mercy, seeks wisdom and promotes universal justice.

The University, through teaching and research, prepares men and women for responsible lives by imparting and expanding knowledge, developing skills, and cultivating enduring values. Through liberal arts and professional programs, students develop their abilities for thinking clearly and creatively, enhance their capacity for sound judgment, and prepare for the challenge of learning throughout their lives.

In keeping with the traditions of the Sisters of Mercy, and recognizing that all people are stewards of God's creation, the University encourages students to work for a world that is harmonious, just, and merciful.

Through coursework, programs and activities, students become advocates and change-agents in finding solutions to the many challenges that face our world.

As a mercy institution, Salve is deeply committed to a focus on the Critical Concerns of the Sisters of Mercy:

ANTI-RACISM • EARTH • IMMIGRATION • NON-VIOLENCE • WOMEN

Psychology Major

*Female Empowerment Club President /
Member of the Mad Batter Baking Club,
Psychology Club and SRYou Planning
Committee*

"My First Year Studio that met once per week with a Compass Advisor and upperclass mentor was a big part of my success in my first semester. We knew we could trust Natalie to give us real answers to whatever questions we had. She always made herself accessible and at every class we were calling her over to help with something we had been wondering about during the week. Natalie quickly became more of a friend than a mentor."

NATALIE COTE '25

*Literature and Secondary Education
Double Major, Creative Writing Minor*

*Peer Mentor / SRYou Chair /
Member of the Leadership Scholars Program*

"I think the first year should be more about exploration – I tried a whole bunch of new things, and it was in my sophomore year that I put down roots. As an education major, I knew I wanted to work with first-year students; I want to be there for them and be someone they can come to if they need something. In each class, I tried to create a cohesive environment where they could share what they were doing and what they wanted to accomplish. We had lots of collaboration and communication – I believe it's important to include students in their learning process in order to create trust and create a bond."

YOUR SUCCESS TEAM AWAITS.

When you arrive at Salve, you will have a group of people dedicated to supporting you each step of the way, from academic and career advisors to orientation leaders, peer mentors and extraordinary faculty across disciplines. You will create your road map to the future with people dedicated to ensuring that you achieve your goals and live your best life – here at Salve and well beyond.

The newly renovated Compass Center for advising, career and life design on the first floor of McKillop Library is a hub for student support and exploration.

S E C O N D Y E A R

EXPLORATION

Expand your viewpoint.

Explore your strengths, learn the skills required for personal and professional success, and discover ways in which you can address the challenges facing our world.

Designed to develop career readiness competencies and prepare students for their Compass Summer experience, Sophomore Studios are a series of workshops. Students explore the diversity of career and life paths available while building a professional network and developing the skills required for future employment opportunities.

ZACH RUSSELL '23

*Cultural and Historic Preservation Major
Sociology and Anthropology and Film Minors*

"Salve is a great school to attend. I have gotten to know many people here as well many faculty members who have helped guide me to where I am today. Salve has also given me opportunities through my internships on Rose Island and Island Cemetery, my work study positions in IT and the Archaeology Lab, to have greater hands-on experiences and real projects focusing on preservation. I have also been introduced to many people in preservation around Newport to create working relationships. Studying historic preservation is a niche career choice and it's a study that is not offered at many schools. If you're passionate about history and like architecture/archaeology take a CHP class or sit in on one, just to see what it's like."

ROSE ISLAND LIGHTHOUSE

FIELD ECOLOGY AND NATURAL HISTORY

Focus on the critical concern of the Earth through ongoing field research on Rose Island, the Norman Bird Sanctuary, Newport Neck/ Narragansett Bay and the Aquidneck Island coastal waters.

NEWPORT'S CLASSIC COAST
INSPIRES ACADEMIC EXCELLENCE
and COMMUNITY IMPACT

The Salve Compass has developed a unique way to help our students build the skills employers are seeking, develop expertise in tackling the critical concerns facing our world and connect students more deeply to the cultural, historic and environmental richness of Newport.

The **Compass Summer** caps off the sophomore year with a one- or two-week immersive group project. Students select experiences that pique their interest, like the examples highlighted on this page, allowing them to explore a new area or expand on their established academic journey.

SEAHAWK PRIDE

Becoming a Seahawk means joining a community dedicated to collective success. Whether it's participation in one of our 20 NCAA Division III varsity teams, intramural sports or cheering on the sidelines, every action and interaction inspires growth.

As the newest member of the New England Women's and Men's Athletic Conference (NEWMAC), Salve is aligned with premier academic and athletic institutions dedicated to providing high-quality, competitive opportunities for student-athletes. With a consistently high average GPA and 10 NCAA postseason qualifications in the past several years, the Seahawks will be at home in a conference that champions academic and athletic excellence.

Advisory Committee*

"You can really tell that there is a special culture being built here. Salve Athletics does a great job in promoting a balance between academic and athletic success. You are challenged every day to be better than you were the day before. It is not only going to help you be successful now but is vital to future success after Salve."

THIRD YEAR

IMMERSION

At Salve, we invite you to dive in.

Take what you've learned and go deeper through hands-on experiential learning opportunities that allow you to test the waters and decide where to go next. Salve students gain experience and effect change through internships, fieldwork, community service, and the many ways in which they partner with local, regional and national businesses and organizations.

AREAS OF STUDY

UNDERGRADUATE

Accounting	Economics	Neuroscience minor

GRADUATE

Administration of justice and homeland security
Behavior analysis
Business administration (MBA)
Clinical counseling with specializations in clinical rehabilitation and holistic clinical mental health counseling
Creative writing, low residency MFA (Newport MFA)
Healthcare administration
Leadership dynamics and practice
Innovation and strategic management
International relations
Nursing (DNP and MSN)

Earn your bachelor's and master's degrees in an accelerated time frame, most in 5-years, with direct entry into the following programs:

- Business administration (B.S., MBA)
- Criminal justice and criminology (B.A.) and administration of justice and homeland security (M.S.)
- Healthcare administration (B.S., M.S.)
- History or political science (B.A.) and international relations (M.A.)
- Psychology (B.A.) and behavior analysis (M.S.)
- Psychology (B.A.) or social work (B.S.) and clinical counseling (M.A.)

ANDREW SIABA '19, '20 (MBA)

Senior Analyst,
Financial Crimes Digital
Asset Surveillance at
Fidelity Investments

"Salve is a very collaborative place, much like in the real world. Other schools don't always do that. I was always one to ask questions and further discussions, and the professors were always willing to have conversations. I strive to not only meet expectations, but to exceed them, which helped me to convince my manager at Fidelity to allow me to work in cyber-crime - a journey that began when I was assigned to counterfeit money and financial fraud cases during an internship with the U.S. Secret Service. It's really rewarding, and I'm catching the bad guys."

THIRD YEAR
IMMERSION
GLOBAL PERSPECTIVE

PEACE

Learning and living through the lens of an ever-expanding world view is what Salve students do best. Whether by attending on-campus lectures and activities such as the twice-yearly Multicultural Education Week or by studying abroad through one of our many international program partnerships, students become part of something bigger by connecting with each other and with all those they meet as they discover who they are and who they want to be.

SOPHIE BEAUCHESNE '23

Community Environmental Promoter in Paraguay

*Varsity Field Hockey Player / Peace Corps Volunteer /
Member of the Environmental Club*

"I've always loved traveling and going to new places, but what inspired me to [study in Zanzibar] were the classes I took at Salve in anthropology and environmental studies. I was always learning about other places in the world and where people use their resources differently, and various issues globally. Because of that, I really wanted to go see what it was actually like.

For the first two months, I was learning the language, taking classes on coastal ecology and natural resource management, plus going out snorkeling. For the third month, I moved to a remote village where I lived independently. I learned that it's good to go out of my comfort zone.

I think the coolest thing was finally understanding what I have been reading about and learning in class. It's different when you read about how the environment works and how people use their natural resources, and then you go there, and you actually see and understand what is happening."

F O U R T H Y E A R

INTEGRATION

The classroom is only the beginning.

Salve students seek to understand how the world works so they can help create positive change.

This happens through our innovative Center for Business Outreach, the Pell Center for International Relations and Public Policy, state-of-the-art studios and laboratories, and our one-of-a-kind location in a community that attracts visitors from across the globe – inspiring academic advancement through a variety of majors and research offerings.

ANA MARTINEZ '23

*Biology Major (Pre-health Track)
Double Minor in Chemistry
and Dance*

*Association of Student Researchers
Vice President / Peer Mentor /
Subject Tutor*

Ana has presented her research at the Rhode Island Summer Undergraduate Research Symposium, SRyou Student Exposition and at the Annual Biomedical Research Conference for Minoritized Scientists ePoster Spring Symposium for Emerging Scientists, where she was proud to share her work and learn from others in the Latinx community.

“I do a lot of research with Dr. Belinda Barbagallo. I love it because I get to implement all the skills I learned as a Salve student into an actual, physical experiment that I can present data from, and go to conferences, and talk to people about, which is really important because I’m at the forefront of new discoveries that the society has yet to learn.”

FOURTH YEAR INTEGRATION

Faculty that inspire and professional connections that lead to opportunity.

At Salve, students have the possibility to have an impact on their community and career as the Compass learning integrates their post-graduate preparation. Through research opportunities, presentations and networking, Salve students are uniquely prepared to answer the call of what the world needs. We know this is true – because they're already doing it.

Each year, students in Sam Sacco's Econometrics class study the direct and indirect economic impact of a Newport organization and present their findings to business and community leaders who use the analyses to make both policy and funding decisions in Rhode Island. Past projects include evaluations of the famed Cliff Walk, the Naval Undersea Warfare Center and the impact of the pandemic on local tourism. As part of Newport Hospital's 150th anniversary commemoration, the class was commissioned by CEO and Salve alumna Crista Durand '92 to examine the hospital's impact; the resulting data demonstrated that it contributes more than \$54 million annually to the community.

CIARA MARRO-WILSON '23

*Biochemistry Major
3+3 PharmD Program*

“All of the professors that I had over my three years at Salve were incredible. They were very supportive and kind, and they challenged me. Dr. Khadine Higgins, in particular, always showed me immense support and she is that professor who wants the absolute best for her students. When I heard about Salve’s joint PharmD program, she was the first person I reached out to and she responded immediately, helping me right away to ensure my schedule was on track. Even when it came to course work, such as general chemistry, she was always willing to help any one of her students. She was and is always there when you need her, and I could not be more thankful to have had her as part of my Salve experience. Her kindness, humor, and care will never be forgotten.”

FOURTH YEAR

A CULMINATING
EXPERIENCE

MORGAN MATOS '23

*Early Childhood Education Major
Special Education Minor
OCHRE Scholar / Pell Honors Student*

Morgan credits faculty like Dr. Pamela O'Day and Dr. Holly Carrol Moore for preparing her for a career in education. "The professors and field experiences at Salve Regina prepare you to enter the world of education. I am confident that I will land in a position that best fits my teaching style and educational philosophies. As seniors, we spend quite a bit of time developing a digital portfolio that makes us stand out against other applicants. This is a tool that many education majors will be using throughout the interview process to showcase the variety of work we have done throughout these past few years in our placements. Although the idea of leaving Salve is a little daunting, I am excited and feel fully prepared to face the world of education!"

JUWAAN DOUGLAS-JENKINS '22

*Biology Major
Chemistry and Healthcare Administration
and Management Minors*

Following graduation, Juwaan joined the Gisela Storz Lab as part of the National Institute of Health (NIH) Postbaccalaureate Intramural Research Training Award (IRTA) program, working side-by-side with some

of the world's leading scientists in an environment devoted exclusively to biomedical research. Juwaan works to identify and characterize small regulatory proteins. He credits Dr. Anna Reid, assistant professor in the Department of Biology and Biomedical Science, with his success. "As my research mentor for three years, Dr. Reid has truly inspired me. Without her insight and guidance, I would not be the researcher I am today."

ETHAN HEIDGERD '22

*Nursing Major
Healthcare Administration and
Management Minor*

Ethan prepared for the National Counseling Licensure Exam (NCLEX) after graduation to become a licensed nurse. After taking the NCLEX, he continued working as a certified nursing assistant at Yale New Haven Hospital before starting his training to be a registered nurse. While there's no doubt that the Salve Regina nursing program is rigorous, Ethan said that his faculty were very knowledgeable and always willing to go the extra mile to help their students. "I had a very rewarding four years as a nursing student, and I feel well prepared to be a registered nurse - all thanks to my professors and clinical preceptors who have helped me every step of the way."

University Magazine 2023

Morgan Rizzo met Shannon Cushing for the first time when the former Communications major was a guest speaker in Dr. Donna Harrington-Lueker's feature article writing course. Later, Morgan was asked to research and interview a local business as part of the class and chose a small, family-owned business in Mystic, Connecticut, for her article, which the professor forwarded to Shannon, a magazine editor in the area.

"I loved it from the first sentence, so I immediately reached out and asked her if she wanted to add a few more things to the story for print in the magazine," says Shannon.

"Morgan quickly made the changes and sent back an incredible Q&A. In fact, we made it the cover story!"

"Having the cover story was the highlight of my junior year," said Morgan, who continued to submit feature articles to Shannon on a wide variety of topics.

"Morgan is so talented," said Shannon. "It's awesome to see her wanting to expand her skills and gain industry knowledge. She was a joy to work with. Maybe someday she will be my editor!"

"I still consider Shannon a mentor," said Morgan, who joined A.T.Y. Hospitality as the social media and marketing manager after graduating. "I have called her with graphic design questions. She let me know in a sweet note that as a Salve alumnus she wants to stay in touch and really be there for me."

Being a supportive community is something that Salve Regina prides itself on – and that starts from day one.

Here, we work with you every step of the way to make attending Salve your reality. We encourage students to think of financial aid as a long-term relationship. The experienced counselor who helps you navigate the application process will be working with you from your first questions about the FAFSA through Commencement.

I am thrilled that you are considering Salve Regina University as you explore possibilities for your future college home. As you learn more about our remarkable oceanfront campus, you will discover a special, one-of-a-kind place that is fully committed to your success. You will meet our dedicated faculty who are known for their outstanding mentorship of students as they facilitate your learning in our small but dynamic classes. At Salve, we balance deep subject knowledge with state-of-the-art tools and facilities, and theoretical understanding with practical experience.

A Salve education is measured by the impact that our graduates have on the world. Today, more than ever, we are in dire need of educated leaders with both the perspective and ability to address society's most pressing issues. At Salve, our students learn to tackle global problems through the lens of the Critical Concerns of the Sisters of Mercy - Earth, immigration, non-violence, women and anti-racism. These concerns directly address the most acute challenges our communities face, and our Salve graduates are uniquely positioned to be the ethical leaders our society needs.

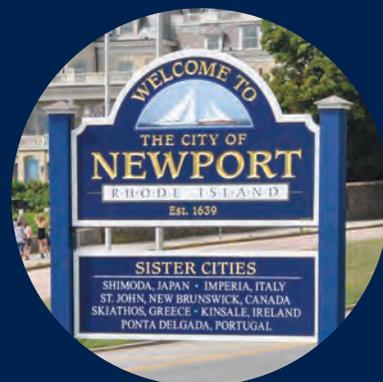

With the Salve Compass as its framework, a Salve education is a transformative, mercy-inspired experience amidst an inclusive community. Here, you will enjoy the advantages of studying in the globally connected city of Newport, and you will have ample opportunity to augment your classroom and co-curricular campus experiences through community engagement, internships, practicums and study abroad. A degree from Salve will best position you to have a meaningful impact on the world.

I invite you to apply for admission to Salve Regina University. Please be sure to visit so you can see firsthand our unique campus and experience our welcoming community. I firmly believe that we offer a life-changing education, supporting our students every step along the way as they become their very best selves.

Warm regards,
