Fall, spring and summer starts available

*Scan for more information, including course requirements and how to apply.*

## Develop Your Leadership Skills

Health care settings are highly dynamic workplaces that require people with diverse backgrounds to collaborate in situations that change rapidly. Salve Regina University's four-course graduate certificate in healthcare leadership helps professionals build the skills needed to exceed patient satisfaction expectations, enhance strategic thinking, work collaboratively, lead change and manage effectively in a crisis.

Our program provides a comprehensive, immediately applicable framework for leading your team. Grounded in current situations, each course builds on the previous learning to develop skills and strengths. As you progress through the program, you will:

- Enhance your personalized leadership approach.
- Learn to develop your team's effectiveness.
- Understand how to resolve differences of perspective while preserving relationships.
- Research and demonstrate how to lead change via a self-selected project.

Our program is taught by respected professionals with years of hands-on experience overcoming the challenges our students now face, all while respecting the University's commitment to the mercy tradition, which emphasizes personal values and professional responsibility to better meet the needs of others.

## Who Will Benefit?

Professionals who hold a bachelor's or master's degree in any major are invited to apply. The graduate certificate in healthcare leadership is designed for current and aspiring leaders in hospitals, health systems, mental health facilities, physician practice and government and non-government agencies.

Students in good academic standing who wish to continue their studies may apply to the M.S. in healthcare administration program. Credits earned in the certificate program may be applied toward the master's degree consistent with University policy.
