

SALVE REGINA UNIVERSITY

Baccalaureate Program in Nursing

The National Council of State Boards of Nursing (NCSBN) is an independent, not-for-profit organization through which boards of nursing act and counsel together on matters of common interest and concern affecting public health, safety and welfare, including the development of nursing licensure examinations.

The National Council Licensure Examination (NCLEX) is a nationwide examination for the licensing of nurses in the US and Canada. Separate examinations are available for registered nurses (NCLEX-RN) and for practical nurses (NCLEX-PN).

After graduation from a nursing school, the NCLEX examination is taken in order to receive his or her nursing license. A nursing license gives an individual the permission to practice nursing, granted by the state where he or she met the requirements.

Calendar Year (updated 1/14/2021)	2017	2018	2019	2020
