

Salve Regina University Information Technology

Registering Your PC on the Salve Community (SRU-Community) WiFi Network:

Salve Regina University has instituted a network access control system to provide a safe and secure computing environment for all computers and devices that use the University's network. Registration is required for all devices that wish to connect and use these network resources. The following instructions are provided as a guide to assist students with connecting their computers to the University's network.

1. When arriving on campus, power on your machine and connect to the "SRU-Community" network. Open a browser once connected and you should be redirected to the page seen below.
2. Click 'agree' to proceed to the registration page.

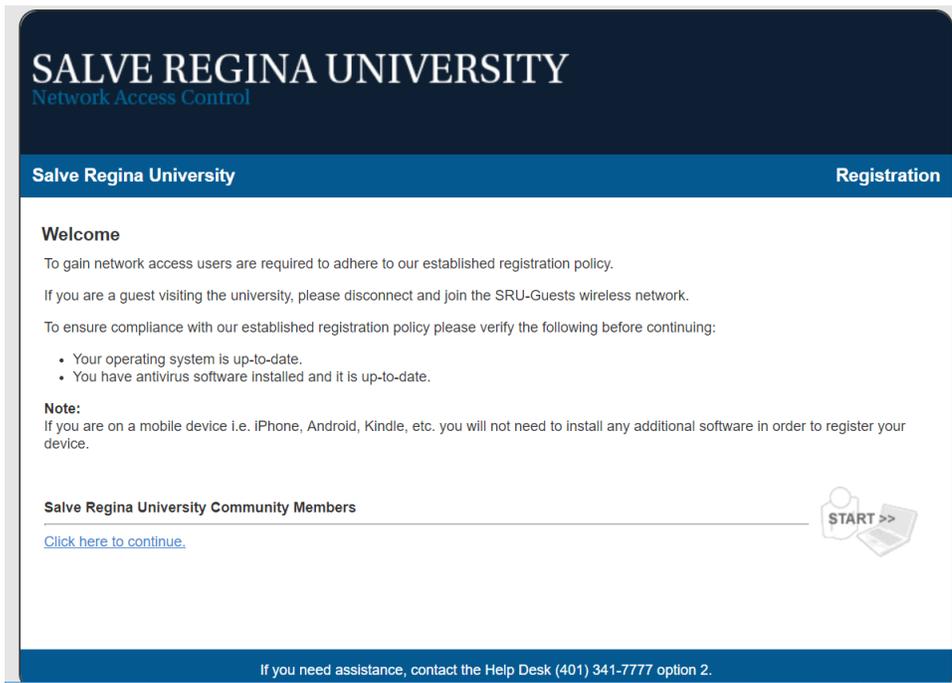

A screenshot of the Salve Regina University Network Access Control registration page. The page has a dark blue header with the university name and logo. Below the header, there is a navigation bar with 'Salve Regina University' and 'Registration'. The main content area is titled 'Computer and Network Use Policy' and contains a scrollable text box with the following text:

INTRODUCTION
Salve Regina University is dedicated to the mission of "seeking wisdom, promoting universal justice and through teaching, research and community service to work for a world that is harmonious, just and merciful." In support of this mission, the university provides access to information technology resources (including computer networks and computer equipment) to its faculty, student, staff and other members of the University community. The Computer and Network Use Policy (Policy) contains the University's philosophy and requirements governing faculty, students, staff and other members of the community in their use of the University's information technology resources.

GENERAL PRINCIPLES
The information technology resources are to be used exclusively to further the mission of the University. All members of the university community have the obligation to use these resources in a manner consistent with this goal.
The University's information technology resource is a finite, shared resource of its community worthy of respect. As such, the University expects each member of the community to use these resources responsibly, ethically and to comply with the Policy, relevant laws and contractual obligations to other parties.
The use of these resources is a privilege. If a member of the community fails to comply with the Policy or relevant laws or contractual obligations, that member's privilege may be revoked.

At the bottom of the scrollable area, there are two buttons: 'Disagree' and 'Agree'. Below the scrollable area, there is a footer with the text: 'If you need assistance, contact the Help Desk (401) 341-7777 option 2.'

3. On the registration page choose 'click here to continue'

Salve Regina University **Registration**

Welcome

To gain network access users are required to adhere to our established registration policy.

If you are a guest visiting the university, please disconnect and join the SRU-Guests wireless network.

To ensure compliance with our established registration policy please verify the following before continuing:

- Your operating system is up-to-date.
- You have antivirus software installed and it is up-to-date.

Note:
If you are on a mobile device i.e. iPhone, Android, Kindle, etc. you will not need to install any additional software in order to register your device.

User Registration

Each user is required to verify that their PC will meet established network policies prior to connecting to the network.

You must already have an active Salve Regina University account in order to register.

- If you know your username and password fill out the form below and click the download button.
- If you do not know your username and password, contact the Help Desk (401) 341-7777 option 2.

When you have filled out the form, you may be prompted to download and run a security scan to verify that your PC will meet these policies. The process will take approximately one to two minutes. Do not interrupt this process while it is running.

Enter your username and password. Then click the Continue button.

5. The Bradford Dissolvable agent will download. Click on the newly downloaded Bradford Dissolvable agent. Then Click yes to allow the app to make changes to your device.

6. The Bradford dissolvable agent will launch. Click the **Continue** button to register your computer to the Salve Regina Network.

The screenshot shows the Salve Regina University Network Access Control (NAC) user registration page. The page header includes the university name and "Network Access Control". The main content area is titled "User Registration" and contains instructions for users. A dialog box titled "Bradford Dissolvable Agent (https://sruoitnac02.go.salv)" is overlaid on the page, displaying a welcome message and "Continue" and "Cancel" buttons. The "Continue" button is highlighted in blue. Below the registration instructions, there is a "Reset" button. At the bottom of the page, a footer provides contact information for the Help Desk.

If you need assistance, contact the Help Desk (401) 341-7777 option 2.

7. The Bradford Dissolvable Agent will now scan your computer to ensure it meets SRU-Community standards. This includes possessing a valid, updated antivirus software like Windows Defender. Click **Finish** to complete the registration process.

The screenshot shows the Salve Regina University Network Access Control (NAC) user registration interface. The main page has a dark blue header with the university name and "Network Access Control" in light blue. Below the header, the page title is "Salve Regina University" and the section is "User Registration". The text explains that users must verify their PC meets standards and that they must have an active Salve Regina University account. It lists two options: filling out a form if the user knows their username and password, or a different path if they do not. It also states that the process may be prompted by policies and takes about one to two minutes. There is a "Reset" button at the bottom of the registration area. A footer at the bottom of the page provides contact information for the Help Desk: (401) 341-7777 option 2.

Overlaid on the registration page is a white dialog box titled "Bradford Dissolvable Agent (https://sruoitnac02.go.sah)". The dialog box contains the message: "The security scan of this system has been completed." At the bottom of the dialog box are two buttons: "Finish" and "Cancel".

- The browser will now redirect you to the success screen. A progress bar will appear. When it is complete, the message shown below will instruct you to close and reopen your browser. Click **Ok**. At this point, you should be registered to the SRU-Community network and have access to the portal.

Should you have trouble registering to the SRU-Community network through Bradford, please feel free to contact the SRU Help Desk at 401-341-7777 and a technician will assist you with registering on the network.
